

EASTWAVE WEBSITE BUILD BRIEF

Version 0.1

Status: Working Draft

Owner: EastWave Interactive Co. Limited

Project Type: Custom Website

Build Approach: Founder-led + AI-assisted development

1. PROJECT OVERVIEW

Build EastWave's official custom website.

This website is not intended to behave like a traditional agency brochure.

Its purpose is to act as EastWave's first public proof that the company understands:

- business positioning,
- commercial storytelling,
- custom web development,
- AI-assisted execution,
- digital trust,
- market-specific growth systems.

The website itself should demonstrate the level of thinking EastWave sells.

Primary outcome:

A serious visitor should leave feeling:

"This company is early, but the thinking is serious."

2. COMPANY

Company Name:

EASTWAVE INTERACTIVE CO. LIMITED

Working Brand:

EastWave

Base:

Nairobi, Kenya

Operating Direction:

East Africa and beyond

Category:

AI-first brand, web, and automation studio

3. CORE BELIEF

Ambitious businesses should not have to choose between:

local understanding

and

world-class digital execution.

EastWave exists to combine both.

4. CORE PROMISE

EastWave builds digital growth infrastructure for ambitious companies.

We help businesses:

- become easier to trust,
 - explain themselves clearly,
 - build stronger digital presence,
 - reduce operational friction,
 - create scalable growth systems.
-

5. WEBSITE OBJECTIVES

The website must:

1. Explain EastWave within five seconds.
 2. Make the company feel serious and modern.
 3. Show strategic thinking.
 4. Present clear commercial offers.
 5. Build trust through proof.
 6. Convert visitors into project inquiries.
-

6. TARGET CLIENTS

Primary:

Local serious businesses.

Secondary:

Real estate and investment firms.

Healthcare providers.

Marketplace founders.

International companies entering East Africa.

African companies targeting global markets.

7. CLIENT PROBLEMS

EastWave exists to help clients who feel:

"Our business is real, but our digital presence does not reflect it."

Common problems:

- unclear positioning,
- weak websites,
- scattered content,
- poor lead handling,
- no digital systems,
- AI confusion,
- low trust.

8. POSITIONING

EastWave is not:

- a generic marketing agency,
- a social media posting company,
- a cheap web vendor,
- an AI hype consultancy.

EastWave is:

an AI-first brand, web, and automation studio.

Alternative language:

Digital growth infrastructure.

9. WEBSITE TONE

The website should feel:

- sharp,
- calm,
- strategic,
- premium,
- founder-led,
- modern,
- globally credible.

Avoid:

- hype,
- buzzwords,

- fake luxury,
 - startup clichés,
 - excessive corporate language.
-

10. WEBSITE EXPERIENCE

Visitors should experience:

Understand ↓

Trust ↓

Explore ↓

Imagine

↓

Inquire

The website should feel like a guided strategic conversation.

11. HOMEPAGE FLOW

12. SERVICES

Core commercial offers:

Clarity Sprint

Custom Website Sprint

AI Workflow Sprint

Growth Infrastructure Retainer

Services should be presented as outcomes, not task lists.

13. PROOF STRATEGY

Do not fake proof.

Use:

- concept builds,
- founder notes,
- strategic examples,
- AI workflow demos,
- before/after messaging,

- early work.

The website must communicate thinking before scale.

14. INTERACTIVITY PRINCIPLES

Motion should create understanding.

Good interaction:

- reveal,
- compare,
- explain,
- guide.

Bad interaction:

- decoration,
 - unnecessary animation,
 - distraction.
-

15. TECHNOLOGY DIRECTION

Recommended:

VS Code

React

Vite

Tailwind

GitHub

Codex

Claude Code

Architecture principles:

component-based

mobile-first

fast

maintainable

16. AI RULES

Coding agents must:

read /docs first.

do not invent clients.

do not rewrite positioning.

build feature by feature.

explain file changes.

protect clarity.

17. DEFINITION OF SUCCESS

Version 1 succeeds if a visitor can answer:

What is EastWave?

Who is it for?

What does it build?

Why is it different?

How do I start?

without needing a call.

18. FIRST BUILD TARGET

Homepage MVP.

Required:

Navbar
